WELCOME

After a successful edition in 2018, and a great digital version in 2021 gathering over 150 person, we are back for a Third event in Nice on the 13th and 14th of June 2022.

CONFERENCE'S PROGRAM

1. Modeling COPD/Asthma/IPF and CF *in vitro*
2. Viral Infections
3. Bacterial Infections
4. Inhalation Toxicity testing
5. Biological barriers & Drug delivery
6. Exposure devices
7. Airway/Lung on a Chip - Interconnections
8. Think different

LIVE2022 intends to be a unique exchange platform for scientists interested in *in vitro* respiratory researches, stakeholders from academia, pharma, biotech, chemical, tobacco, consumer goods, medical devices industries, CROs and regulatory agencies.

The meeting focuses on predictive *in vitro* lung models designed for basic research, efficacy and toxicity testing. It aims to present the state-of-art of *in vitro* lung models, and to map out the route for its future development and use.

• **Deadline Abstract submission** (poster/ Oral presentation): **15th April 2022**

TRAVEL GRANT

PETA INTERNATIONAL
SCIENCE CONSORTIUM LTD.

Advancing 21st Century Toxicology

Call for young career/student scientists

• **Deadline Travel Grant:** **15th April 2022**
